

## How to Create an iTunes Account

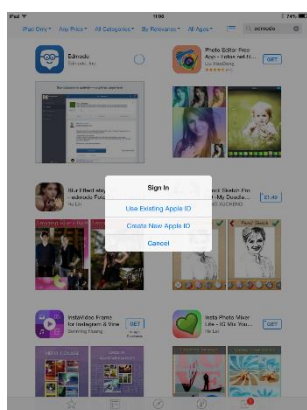

From the Home Page tap on **App Store**.

Search for a free App, we recommend **Edmodo** as it is one that is used in the Academy.

When the list of Apps appears on the screen, tap on the **GET** button next to the App you wish to download.

Tap **Create New Apple ID**

## How to Create an iTunes Account

Agree to the terms and conditions, and then fill in all contact details.

*If your child is under 13 you will need to use an adults' details but you can use your child's e-mail address. Apple will not let you create an account for a child under 13.*

There are several more pages of personal information to fill in but all should be self-explanatory.

As you have chosen a free App to download, you are given the option of choosing **NONE** as payment details.

Please **do not** enter your debit, credit card details, the student will need access to this account and will need the password.

An e-mail will be sent to the e-mail address you used to create the account, you must click on the verification link within to e-mail to activate your account.
